The bill is expected to be the subject of liberal amendment even by ment of 2 per cent bonds, by which \$700,000,000 of national bank notes now are secured, so as to provide against depreciation, will be one of the foremost problems

The provision for note issue, administration quarters hope, will not be changed. It is said to be the result of a carefulcanvass not only of prominent bankers but business men who thought it practicable and sound. Operation of Plan.

The operation of the plan is ex plained in this way

Whenever a state or national bank desires to obtain currency, it applies first to the federal reserve bank in its region, accompanying its application with a tender of collateral security. The security thus offered highest in this month since must be notes and bills adopted for 01; lowest last night, 64; low-re-discount under rules laid down by The federal reserve banks must

hold 33 1-3 per cent in gold of the amount of notes advanced. The notes also become a first and permanent lien on all the assets of the federal reserve banks.

The element of elasticity tained, according to administration officials, in the levying of an interest is to be established by the federal reserve board with due regard to the prevailing charge in the money mar-It is calculated that a fall in the demand for money accompanied by a decline in the market rate of interest would furnish an incentive for the retirement of the treasury
